Assembly Instructions

Kit includes: Top, front, back, 2x sides, 2x shelves, 8x turn parts and 2 x hand wheel nuts. Foam tape supplied but not applied (The above kit shown is a deluxe kit)

Ensure top of side is aligned/Parallel with front/rear face.
Please note: The adhesive dot indicates the top.

To build the base of the unit align front with the locators on the sides, Screw the turn parts through the front and into the side panel. Repeat this for the remaining sides

Insert the smaller of the two shelves at the bottom of the unit. Rest the shelf on the shelf locator. Repeat these steps with the upper shelf. **Please note:** 8 screws are supplied to fix shelves permanently

Lift the top onto the base of the unit

Lower the table top onto the base of the unit. Make sure the table top locators are in the locators on the sides of the unit.

Once the table top is in place secure using hand wheel

Optional extra facia kit

Replace the top set of turn parts on the front of the counter with the stand off kit

Place the locators of the facia onto the stands off kits

Screw down the top of the stand off's to secure into place.
